Systematic Internaliser Commercial Policy – Equity/Equity-linked Instruments

---

October 2021

Issued January 2021

Version 1.1

## A. Purpose and Explanation of this Policy

Where Jefferies GmbH (JEG)<sup>1</sup> acts as a systematic internaliser (“SI”) in respect of any shares, depositary receipts, exchange traded funds, certificates and other similar financial instruments traded on a trading venue (each an “Equity/Equity-like Instrument”), it is required to meet the pre-trade transparency obligations set out in Articles 14 – 17 of the Markets in Financial Instruments Regulation 648/2012 (“MiFIR”), where applicable. MiFIR permits SIs to:

- (i) decide the clients to whom they give access to their quotes; and
- (ii) limit the number of transactions they undertake to enter into in certain circumstances for the purposes of risk management.

## B. Access to Executable SI Quotes

### 1) Accessing published quotes via voice.

Clients that satisfy JEG’s general account opening criteria shall be permitted to access JEG executable quotes via voice. JEG reserves the right to decline access requests for executable SI quotes via voice from clients that do not meet JEG’s general account opening criteria

### 2) Accessing published quotes electronically.

JEG SI quotes are accessible solely via voice. Electronic access to SI quotes is not provided to clients. This position is subject to change and this commercial policy will be updated accordingly

JEG’s trading hours for Equity/Equity-like Instruments are in line with the continuous trading hour of the most relevant market in terms of liquidity for the relevant instruments.

Cboe Europe NA (Cboe) is the only approved channel by which JEG will make its SI quotes public. JEG published quotes will be executable via voice only.

JEG shall have discretion to alter the above parameters subject to compliance with MiFIR.

## C. Risk Management

In order to limit its risk exposure, JEG may limit the number of transactions from the same client that it undertakes to enter at the published quote, in a manner that does not result in the discriminatory treatment of clients. JEG may also limit the total number of transactions from different clients at the same time that it undertakes to enter at the published quote, provided it does so in a manner that does not result in the discriminatory treatment of clients and the number and/or volume of orders considerably exceeds the norm such that JEG cannot execute these orders without exposing itself to undue risk. In general, it is likely that JEG will be able to execute with clients at its published quotes (subject to its commercial policy). However, JEG reserves the right to manage its risk at a firm-wide level and, taking into consideration JEG’s capital commitment and prevailing market conditions, in exceptional circumstances, JEG may be unable to quote and/or execute with some or all clients on the basis of its published quotes. In addition, and notwithstanding that JEG may continue to make quotes public, JEG may be unable to execute transactions in some financial instruments with clients where applicable legal or regulatory restrictions prevent it from doing so.
